

REV Exists to Help Leaders Build Scalable and Sustainable Meaningful Connection.

Meaningful Connection is the foundation of holistically thriving individuals, teams and organizations.

The Value of Meaningful Connection

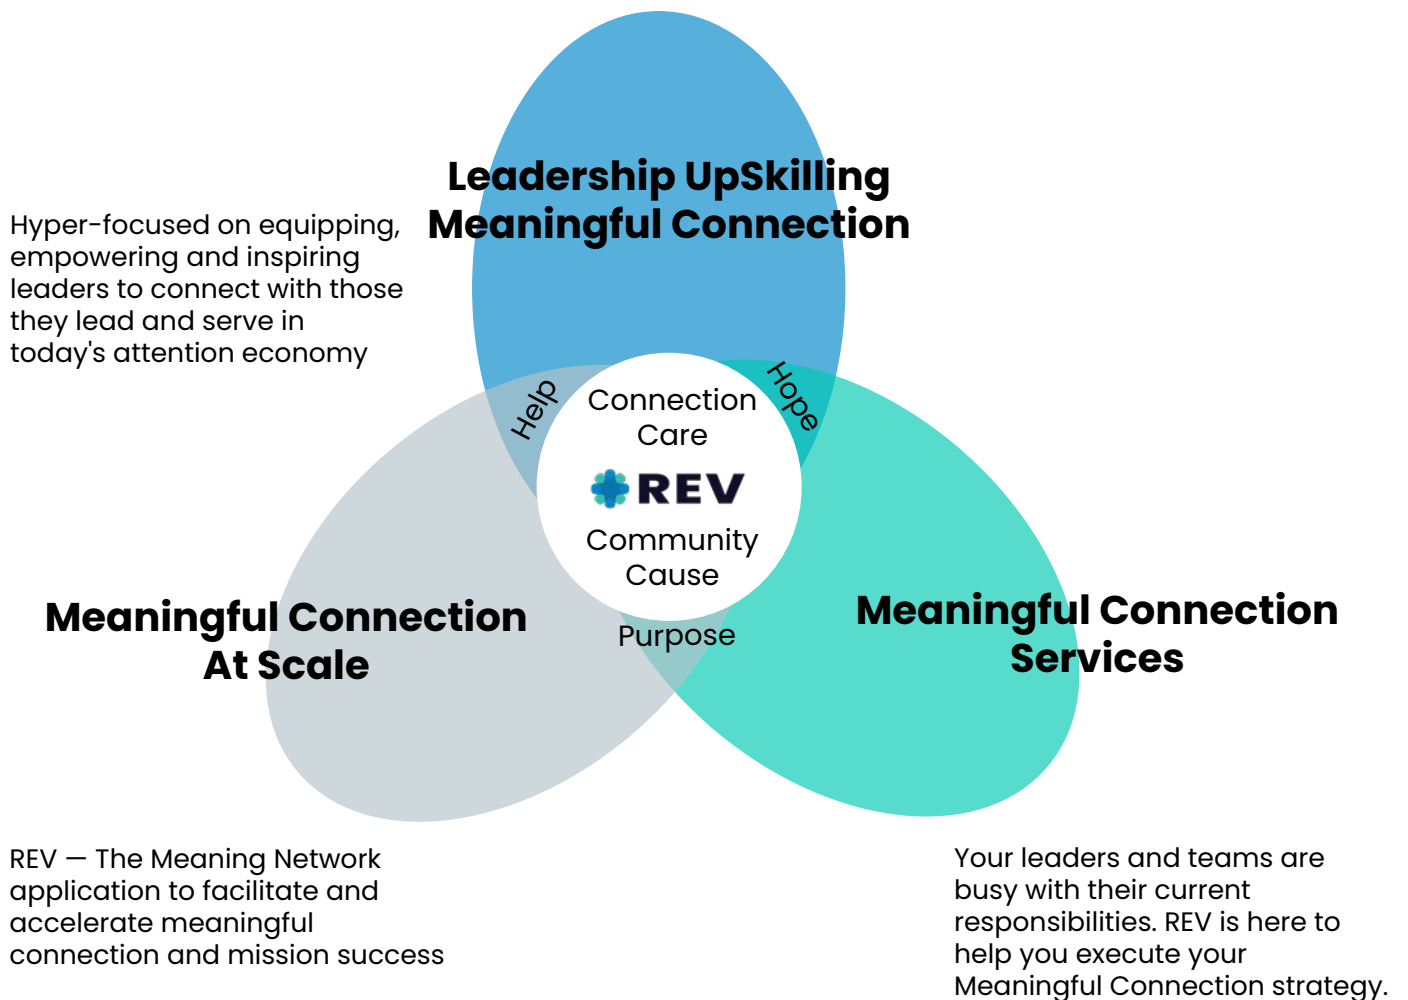

RECRUITMENT | RETENTION | RESILIENCE | READINESS | REINTEGRATION

Meaningful Connection as a Service (MCaaS)

An innovative, multi-faceted approach to building Meaningful Connection in scalable and sustainable ways by leveraging **PLUS One Leaders**, the power of **Strategic Storytelling**, and the scalability of the **REV platform**.

Organizational Journey

Overview of how we implement scalable and sustainable Meaningful Connection within an organization. We can build custom solutions to fit your unique organizational needs.

Meaningful Connection Foundations

Build Up Leader Capacity to Connect

REV trains and equips leaders to effectively use storytelling and the REV platform to foster Meaningful Connection in their teams.

Scaling Meaningful Connection

Leaders Equipped, Empowered, & Encouraged

Leveraging the group function in REV, leaders provide opportunities for relationship-building, access to resources, and opportunities for growth and impact.

Sustained Connection Services

Ongoing Connection Services

REV will provide ongoing storytelling, digital community building, and new leader training services along with event facilitation.

Getting Started

Discovery & Assessment

The REV team works alongside your leadership to conduct a thorough discovery process to understand your existing assets and needs.

Planning & Preparation

REV develops your Strategic Meaningful Connection Plan, outlining short- and long-term objectives as well as measurements of success.

Agile Execution — Build, Measure, Learn, Improve

REV guides your team in the execution of the Meaningful Connection strategy, measuring and reporting on success, and adjusting as necessary to ensure maximum impact.

Better, Different, Special

Leader Led

We believe in partnering with and amplifying PLUS One Leadership – transformational leaders of character and courage working to make a positive impact in the world.

Purpose Driven

REV is the Meaning Network and is working to fuel the Meaning Ecosystem and fund the Meaning Economy. We exist to connect people to hope, help and purpose in scalable and sustainable ways.

Curated

REV is not an open platform – where anyone can come and publish anything they want and algorithms work to highlight the most divisive content. REV works to amplify and multiply the best of humanity.

“The military and veteran community is closely bound together through shared experiences and strong sets of values and mission. Despite this, they still face many challenges that are more effectively overcome through resilience, empathy, supportive relationships, and other human-centric leadership approaches. Professionally and personally, I recognize that the work REV is doing will transform how organizations and individuals find a sense of purpose and meaning. It’s about connection and community. Most importantly, I understand how committed REV is to improving the lives of our service members and veterans.

LTG (Ret.) Joe Anderson, Board Member, REV

“We’re excited about REV and its ability to help connect everyone on our team through our stories. We’ve learned if we know each other better, we can support one another as we learn and grow together. We are linked in a way that we care more about giving our best for our team, company, and customers! And REV is helping us do this every day!”

Julie Mathis, HR Director

“I’ll tell you the #1 reason why we need REV. Until I read Andre’s story about him having an autistic child at home, I thought I was the only one having those challenges and didn’t want to bring my struggles to the workplace. Since knowing his story, we’ve connected as friends and even started a support group at work, meeting regularly to help each other and many more.”

REV Member

“I cannot imagine how long it would have taken for us to get to this point of transparency without your help. Great reviews from the leadership team. We all couldn’t be happier with how the day went”

**Senior Director of Performance and Training,
Fortune 50 Company**

“Setting the right culture and fostering healthy, informed relationships among our employees is critical to our future success, and REV will be a key element in that endeavor. Beyond our internal use, we believe our organizational performance staff will find it very useful in helping other companies reduce turnover and increase productivity. We look forward to continuing this relationship!”

Austin Boyd, CEO
